Summary

With extensive experience in aerospace and systems engineering, I currently serve as System Engineering Manager at the College of Aeronautical Engineering, where I lead transformative programs in Model-Based Systems Engineering (MBSE) and professional education. Committed to advancing industry standards, I collaborate with stakeholders to enhance capacity development and foster partnerships that align with the organization's mission of excellence in aeronautics. My leadership is driven by a dedication to innovation, a pursuit of efficiency, and a goal to elevate engineering practices in the region.

At the College of Aeronautical Engineering, I manage the Systems Engineering Training Program and lead postgraduate initiatives in collaboration with HEC Pakistan. My work focuses on delivering MBSE-driven frameworks, facilitating industry partnerships, and advancing professional education. By implementing effective program management and fostering cross-functional collaboration, our team continues to elevate systems engineering standards and drive impactful outcomes.

Experience

National University of Sciences and Technology (NUST)

Assistant Professor

January 2025 - Present (1 year 5 months)

Risalpur Cantonment

- Led the Systems Engineering Training Program, focusing on Model-Based Systems Engineering (MBSE) and industry partnerships.
- Managed the Postgraduate Systems Engineering program, enhancing capacity development in collaboration with HEC Pakistan.
- Spearheaded professional education initiatives to elevate the standards of systems engineering in the region.

National University of Technology (NUTECH)

Assistant Director Quality

September 2022 - December 2025 (3 years 4 months)

Islāmābād, Pakistan

Ensure Academic Quality Standards inline with OBE AND pec and hec guidelines. ensured ISO CERTIFICATION. conducted local audits to improve academic programs. conducted first ever capacity enhancement audit in collaboration with HEC

Pakistan Air Force

Deputy Program Manager

January 2020 - September 2022 (2 years 9 months)

Islāmābād, Pakistan

- Managed the integration of 28 avionics and weapons subsystems for the Air Force PMO.
- Delivered integration and I&T to flight-test phases, ensuring project milestones were met.
- Led risk workshops, developed mitigation plans, and maintained RAID logs for effective project control.

AVIC International Holding Corporation

Aerospace Systems Integration Lead

November 2017 - December 2019 (2 years 2 months)

Chengdu, Sichuan, China

Served as technical program lead at Chengdu Aircraft Design Institute (CADI), China within an international development team

Liaison Program Manager — International Development & Supplier Handover

Tested & Integrated Avionics Systems on the Aircraft Design Rig

Government of Pakistan

Maintenance Support Engineer

January 2016 - November 2017 (1 year 11 months)

Karāchi, Sindh, Pakistan

- Managed spares planning and depot-level coordination to ensure operational efficiency.
- Oversaw vendor contracts and executed reliability improvement plans to enhance fleet performance.
- Tracked MTBF/MTTR metrics and implemented cost-control measures, maintaining fleet reliability above 90%.

- Provided round-the-clock operational readiness, contributing to the overall success of the Government of Pakistan's maintenance initiatives.

Pakistan Aeronautical Complex Kamra

Integrated Systems & Design Specialist

October 2008 - October 2013 (5 years 1 month)

Attock, Punjab, Pakistan

- Led the program delivery of aircraft systems, ensuring alignment with project goals and timelines.
- Managed the modernization of aircraft platforms, resulting in significant exports and multi-million dollar revenue generation.
- Oversaw program scope, procurement, quality assurance, scheduling, and acceptance processes to ensure successful project execution.

Education

Air University

Master of Science - MS, Signals and Image Processing · (September 2013 - September 2015)

College of Aeronautical Engineering Risalpur

Bachelor of Engineering - BE, Aerospace, Aeronautical and Astronautical/
Space Engineering · (October 2004 - October 2008)
